

# Blinkit Sales Analysis Dashboard - Business Report

## Executive Summary

This report summarizes key findings from the Blinkit Sales Analysis Dashboard developed in Power BI. The analysis evaluates sales performance, outlet characteristics, product categories, and customer ratings to support data-driven decision making.

## Key KPIs

- Total Sales: \$1.20M
- Number of Items: 8,523
- Average Sales: \$141
- Average Rating: 3.9/5

# Business Insights

## Outlet Performance

- Tier 3 outlets generated the highest sales (\$472.13K).
- Tier 1 outlets generated the lowest sales (\$336.39K).

## Outlet Size Analysis

- Medium-sized outlets contributed the highest revenue (\$507.88K).
- High-sized outlets generated the lowest revenue share.

## Sales Trend

- Sales increased steadily and peaked around 2018 at approximately \$205K.
- Sales later stabilized near \$130K.

## Outlet Type Analysis

- Supermarket Type 1 contributed the highest sales and item volume.
- Other outlet types showed significantly lower contributions.

## Customer Ratings

- Average rating remained consistent across categories at approximately 4/5.

# Recommendations

1. Expand business operations in Tier 3 locations.
2. Increase investment in medium-sized outlets.
3. Investigate factors behind the 2018 sales peak.
4. Optimize underperforming outlet types.
5. Improve customer experience to increase ratings above 4.0.
